CAREER OBJECTIVE

Motivated and detail-oriented Junior Software Developer with a strong foundation in scripting, programming, and systems management, actively pursuing a career in game development. A dedicated Cumberland University graduate with 5+ years of hands-on experience in Unity game engine development, combining programming skills and creative design to build engaging projects. Proficient in multiple programming languages, including C, C#, Python, PowerShell, and Microsoft SQL Server, with some experience in HTML, CSS, Java, and C++. Recognized for a strong work ethic, technical expertise, and a commitment to continuous learning, as demonstrated through academic achievements and personal game development projects.

WORK EXPERIENCE

JUNIOR SOFTWARE DEVELOPER

CUMBERLAND UNIVERSITY |
DECEMBER 2023 - PRESENT

- Designed and implemented automation scripts to create faculty AD/email accounts and streamline student email processes.
- Authored and optimized scripts using Powershell and Microsoft SQL Server to enhance company-wide operational efficiency.
- Developed and deployed a DSpace repository website, expanding the organization's digital capabilities.
- Oversaw the deployment of the Sunopsis program, including its upcoming student portal website.
- Collaborated on the migration from an outdated SIS to a modern solution, ensuring data integrity.
- Resolved complex software issue tickets, providing technical support and training to staff.

GAME PROGRAMMER VOLUNTEER

FORBIDDEN KEMONO STUDIO |
APRIL 2025 - JUNE 2025

- Implement AI mechanics for enemy characters.
- Contribute to design decisions and future game implementations.

MANAGER ON DUTY, TEAM LEAD, PICKER

KROGER | AUGUST 2018 -
SEPTEMBER 2023

- Progressed through multiple roles, including Picker, Bagger, Starbucks Barista, Pickup Department Lead, and Manager on Duty.
- Supervised team members and managed store operations as Manager on Duty, ensuring smooth daily workflows.
- Led the pickup department, optimizing processes to meet high customer demand and improve satisfaction.

INDIE GAME DEVELOPER

THESCIENCEGUY GAMES |
NOVEMBER 2018 - PRESENT

- Created and developed personal game projects using Unity, showcasing skills in game mechanics, physics, and scripting with C#.
- Developed a 2D procedural planet generation system for a project currently being worked on.
- Designed and coded a game for the Thumbby platform, awaiting approval for release.
- Won first place in FBLA Game Development Competition for "The Hospital".
